**WHERE CUSTOM MEANS CUSTOM**

**EVERY VIKING CUE, UNIQUE.**

At Viking Cue, Custom Means Custom, you have the option to vary any part of the cue to fit your aesthetic or performance needs—from joint and shaft to ring work and inlays. Create the look and the feel you want to match your playing style.

**AT VIKING CUE, THE ONLY THING THAT ISN'T CUSTOM IS OUR LIFETIME WARRANTY. IT'S THE SAME WITH EVERY CUE.**

## BUILDING YOUR DREAM CUE BEGINS WITH UNDERSTANDING YOUR DREAM.

The information in this user guide is intended to help you and your Viking dealer work together as you specify each element of your new cue — from design and cue technology to tip size and everything in-between. Knowing what options are available ahead of time can certainly save time and money. More importantly, we know the end result will be a Viking cue you'll cherish and will give you a lifetime of enjoyment.

\*In compliance with the United States' ban on the Genuine Ivory trade, Viking Cue will no longer BUY, SELL, SERVICE or USE Genuine Ivory in any Viking cues. Viking uses a (HMA) Ivory and (HMA) Black, which is a proprietary high-impact modified acrylic resin which was developed for Viking Cue and characterized by its toughness and high impact resistance.

Wood is a natural material, with variances in texture, grain and color within each species. These individual characteristics are part of the charm and beauty of the wood. Whether stained or finished natural, some color variations will exist. For this reason, we cannot guarantee exact color matches.

## THE FUTURE OF VIKING

# VIKING TURNS 50

From the basement of a poolroom in Stoughton, Wisconsin to the modern, state-of-the-art facility in Middleton, Wisconsin—we've come a long way over the past 50 years; yet much has stayed the same. We still make 100% of our flagship Viking brand right here in our Wisconsin home—and we're still dedicated to the idea the finest cues in the world come from Viking's unrelenting

commitment to the craftsmanship you can see and feel in our cues. Finally, when we say custom, we mean custom. Our many standard options come to you at no extra charge. We've just always believed in the idea that pool cues should be as individualized as the individuals who use them! What's changed is Viking's vision of the future—using technology to create unsurpassed

performance. Today, our player-tested and critically acclaimed shafts combine legendary craftsmanship with innovative thinking. The result? Breakthrough performance shot after shot.

### NEW DESIGNS, COLORS, AND MATERIALS

Never in our 50 year history have we produced a catalog with more new cue designs. You'll see the future of Viking throughout this 50th Anniversary Catalog. We've taken our legendary designs and put a whole new twist on them with new materials, ring work, woods, colors and stains.

### NEW EXCLUSIVE PRODUCT

We're conquering new territory with our player-tested shafts that combine radical design with unrivaled performance. Check out the new VikingCue.com website and video section featuring the eXactShot RZR cue with its revolutionary X-Core design and signature sightlines. Serious pool players have been raving about our Crush Break cue and Punch Jump cue—see what many call the best tandem in the country.

# THE ANATOMY OF A VIKING CUE

Creating performance like this doesn't just happen overnight, it is a process that takes patience, precision and time,

resulting in the unique features that make every Viking look, feel, and play like no other cue in the world.

## VIKING SHAFTS

Born of innovative design, the pure science of wood and legendary craftsmanship, Viking performance shafts exemplify the meaning of precision and accuracy. The Viking eXactShot®, VIKORE®, and the VPRO® shafts are dominating performers.

## QUICK RELEASE

The other guys charge up to \$125 to add a quick release. The Viking Cue Quick Release Joint is standard on all Viking Cues and greatly reduces the time and effort required to connect two piece cues.

## 27-STEP FINISHING PROCESS

Every Viking Cue undergoes a meticulous 27-step finishing process and includes the application of many layers of Viking UV finish which, between coats, is painstakingly sanded by hand to give our cues the "glass-like" appearance that Viking is known for.

## HANDCRAFTED WRAPS

Whether you select our 100% Double Pressed Irish Linen Wrap or choose a luxurious leather for your cue, all Viking wraps are professionally applied and will provide flawless performance year after year.

## ACHIEVE PERFECT BALANCE

Using the Viking Precision Weight Bolt System, you can achieve perfect balance and fine-tune your cue with our unique stackable weights. The Viking Precision Weight Bolt System is standard on all Viking Cues.

## PRO TAPER

The taper of a shaft should fit a player's shooting style and skill level. All Viking cues come standard with 12-14" pro taper which gives all our shafts natural low-deflecting properties. Other tapers available.

## INDESTRUCTIBLE FERRULE

Exclusively designed, tested and manufactured inside Viking Cue, our indestructible SUPER ferrule exceeds every quality standard with over a quarter million in play and not one cracked ferrule.

## JOINT AND PINS

Designed, tested and machine cut on our state-of-the-art CNC lathes, every one of our joints are made for dead-on accuracy, every time.

## VIKING STAINS

Viking offers 15 vibrant colors of stain that will enhance the natural grains found in each of our woods. Each beautiful grain-enhancing stain is carefully hand-applied by a Viking craftsman.

## OPTIONS GALORE

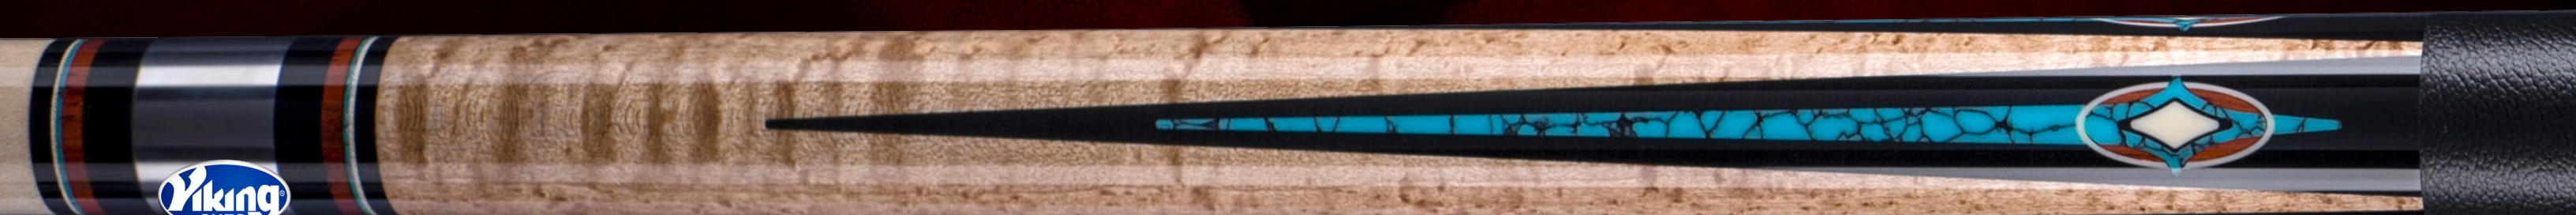

Choose from all the exotic woods, stones, stains, shells, and premium pearls we have to offer. Don't forget, you can also choose your tip, taper, and weight on ANY Viking Cue.

## VIKING UV

Viking UV finish encapsulates the wood and protects your cue from the elements. Viking UV is not only beautiful, it is tough and made to last.

## VIKING BUMPER

The Viking rubber bumper has a minimalist profile, protects, and "stays put" because it is threaded and will never fall out.

WE SMELL THE SAWDUST EVERYDAY.

### ONE LOCATION

We're a bit unusual in the billiard industry. At Viking, we control the process from start to finish, in one location. We all feel a part of every cue that goes out our doors and take tremendous pride in what we do. One location, one team, one result—the most beautiful and best performing cues you can buy.

#### New Manufacturing Facility

In August of 2013, Viking Cue moved into its new home located in Middleton, WI. Optimized for the art of cue making, the manufacturing areas are temperature and humidity controlled and use natural and LED lighting throughout.

**IT MATTERS.**

Viking makes cues at its new manufacturing facility located in the heart of Wisconsin. We listen every day, we treasure the accolades and take to heart any complaints. The entire team gets excited over new designs and technologies. We create products with people we call friends. We're believers—that you finish what you start, in one place, one community, one country. We're proud of what we do and we think that matters to you, to the Viking employee, to the people in our customer community, and we even think it matters to America. Made in the USA. It matters.

## THE ART OF DESIGN

Never in our history has there been a bigger emphasis on design than for this anniversary catalog. Our teams have updated the old and boldly created new ones. We've gone through 50 years of history, updating, changing, creating variations and new versions from our past heritage. We've then jumped into the future, studying looks that come out of the fashion, music and athletic wear industries, and even TV shows like Game of Thrones. Yet one thing hasn't changed in 50 years. We're still creating works of art that outperform anything you'll find in the pool halls across America.

## IT'S THE WAY WE DO THINGS

The manufacturing of cues here at Viking has evolved from being the realm of a single cue maker to the collective efforts from many skilled specialists. Our Viking designers, artisans and engineers all add their knowledge, artistry and diverse disciplines to create the next generation of pool cues and shafts for players who demand nothing less than the best quality, beauty, and precision.

## TO THE WOODS OF THE WORLD

Wisconsin folks have a strong history of knowing woods. This state was essentially founded on lumber camps, sawmills and wood products. All the wood used here is hand-picked and inspected by our Viking artisans. In our lush woodlands and forests, the cold weather causes slower growth in trees which creates an ultra-dense timber with tighter rings. Whether we use our state's native hard rock maple or an exotic hardwood from the other side of the globe, it's all done with an expert eye toward quality, beauty and above all, performance.

## NEW HOME

Our new Viking headquarters is home to more than 20 employees. The energy-efficient building was designed with the cue manufacturing process in mind. State-of-the-art lighting and humidity control provide us with the perfect environment for one thing—to make a cue both our customers and Viking employees can call the “best in the business”.

**NO SMOKE. NO MIRRORS. JUST CUES.**

**NO SPIN NEEDED.**

The only spin you'll get from Viking is on the table. When you create a product line this good, and give amazing, honest service, there's no need for the "smoke and mirrors" style of marketing. We put our effort and energy into one thing, manufacturing the best cue you can buy. That's why you'll find our cues on the tournament circuit, in the pool halls of larger cities, and in the single-table small town taverns.

**We make Viking for you!**

## NEW FOR 2015

Color. It can attract attention or change your mood. It can help define your personality; even how you play. That's why we spent so much time coming up with the new stain colors for our 50th Anniversary catalog. We picked new colors that we know will enhance the natural grain of the maple we use for Viking cues.

So go ahead, pick one that's as individual as a custom Viking and the player that will be using it .....you!

SKINNY

1.205"

The "SKINNY" Option on a Viking Cue Butt measures out about 1.205" thick and compared to the Average Standard Size of 1.295" thickness. **This may not seem like a big difference, but to the players that prefer the feeling of a smaller grip, the difference is HUGE!!!**

# VIKING PERFORMANCE SHAFTS

## VPRO SHAFT

STARTING AT \$129.00

The Viking V PRO Shaft starts with engineering excellence. If you are looking for more power, the CRUSH is your shaft; more spin, the SPIN is your shaft; and more accuracy, the VPRO is your shaft. Or do what many top players are doing, own all 3 for a shaft for any shot you may need to make!

- High Accuracy
- Low Deflection
- Radial Consistency

## VIKORE® AMERICAN PERFORMANCE SHAFT

STARTING AT \$179.00

The ViKORE® American Performance Shaft features advanced low deflection and enhanced power from our reactive ViKORE® center. What does this mean? Enhanced feel and low vibration. Every ViKORE® shaft is designed to help players take their game to the next level. And players around the country agree that these shafts will help you hit the ball straighter so that you pocket more shots.

- High Accuracy
- Low Deflection
- Radial Consistency

## EXACTSHOT® PURE PERFORMANCE SHAFT

STARTING AT \$279.00

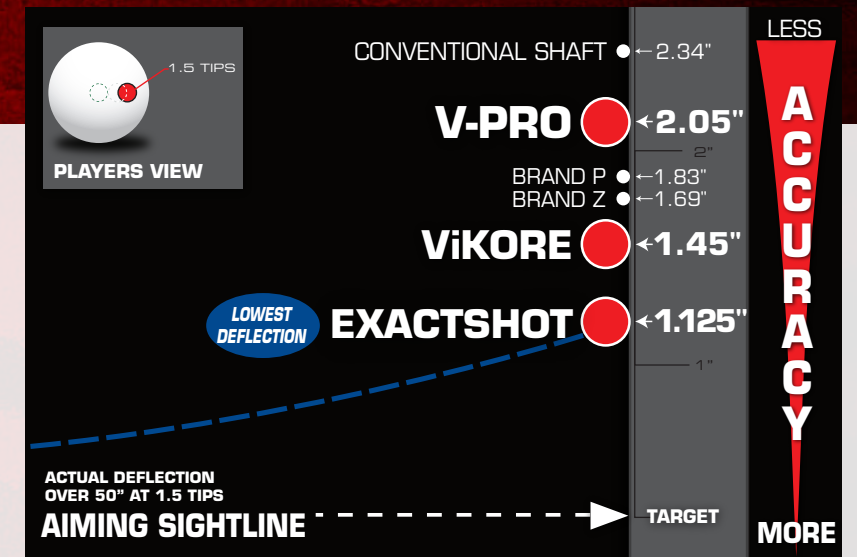

The eXactShot® Pure Performance Shaft has everything you need combined with everything you want. Get pure responsive power with ultra-low deflection from our patented X-Core construction and radically enhanced accuracy using the sightlines. What does this mean? More accuracy and more shots made. In fact, we feel the shaft is REVOLUTIONARY.

- High Accuracy
- Low Deflection
- Radial Consistency

## YOU CAN BE A BETTER PLAYER TOMORROW

Through new technology, advanced design, careful craftsmanship, and world-class performance, our eXactShot®, ViKORE® shafts and VPRO® shafts won't just help you reach your full potential, but perhaps to exceed it. It all starts here.

# TWO FEATHER COLLECTION

## TWO FEATHER CUES BY VIKING

Handcrafting cues has developed from being the realm of a single cue maker to the outcome of the partnership of many skilled specialists. Every Two Feather cue is a masterpiece of precision: cue makers, designers and engineers all add their knowledge and artistry to this magnificent line of cues.

Designer Anthony Two Feather has been designing pool cues for 20 years. His work is inspired by the unique geometry, designs and storytelling found in the Native American heritage. Choose from six heirloom cues designed to provide as much pride and enjoyment in looking at them as they do in playing with them.

## THE WAY WE DO IT

Led by our Viking employees, retailers and fans, Valhalla is way more than just a pool cue... it is an attitude and way of life.

# NEW COLORS FOR 2015!

## NEW COLORS, LIFETIME WARRANTY

Where else besides Viking can you get cue for under fifty bucks and get a lifetime warranty? That is a tough find and certainly makes a VA-100 Series cue, or any of our Valhalla cues for that matter, the best value for anyone wanting to become a good pool player. Viking has got your back, our Valhalla cues have the same warranty as our US-made Viking cues.

VIKING CUE MANUFACTURING, LLC 

**VIKING JOINTS**

Each Viking Quick Release Joint has wood on wood contact surfaces for a natural, solid feel. The different shaft and butt material combinations modify the type of hit produced. The type of hit refers to how the cue feels when energy flows down the shaft, through the joint, and into the butt upon striking the ball. In most instances, joint selection is merely a matter of personal preference.

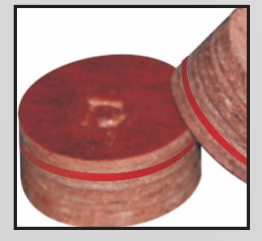

**VIKING TIPS**

We stock most tips from most manufacturers. Contact Viking Cue or your local Viking Dealer for more info.

**KAMUI™ BLACK SOFT TIPS**  
The KAMUI™ Black tip is designed to add more spin to your game. The player can put more spin to the cue ball with relatively slower speed of the pool cue. The elasticity of the black leather absorbs the momentum of the cue to propel the cue ball with desired spin.

**TIGER EVEREST® LAMINATED TIPS**  
The Tiger Everest Laminated is known as the most durable and advanced cue tip ever created. The special red layer warns when replacement is needed. This tip shapes like a hard tip, hits like a medium and has a control like a soft tip.

**LE PROFESSIONAL TIPS**  
Le Professional ("Le Pro") tips are an industry standard, crafted from vegetable-tanned oak leather. The Le Pro Tip has a special protective coating that seals and preserves the leather until the cue is ready to play.

**AT VIKING CUE, CUSTOM MEANS CUSTOM**

For over 50 years we've been making exceptional cues, one at a time, right here in Wisconsin. However, with Viking, you also have the option to vary any part of the cue to fit your aesthetic or performance needs—from joint and shaft to ring work and inlays, you can create the look and the feel you want to match your playing style. Talk to our experts about our revolutionary performance shafts, select all the components you want based on the type of the player you are and then finish it off with a laminated tip of your choice. Finally, you will have the Viking Custom that will set you apart from the rest—whether that's in your basement, the local bar or on the tour.

**AT VIKING CUE, THE ONLY THING THAT ISN'T CUSTOM IS OUR LIFETIME WARRANTY.  
IT'S THE SAME WITH EVERY CUE.**
